In Philosophy.

The Students learn *Logic*, *Metaphysics*, and *Ethics*. The Lectures on these branches are delivered in *Latin*, and a daily discussion (in *Latin*) is held on the Lecture. In *Natural Philosophy*, *Astronomy* and *Chemistry*, the Lectures are given in *English*.

Mathematics.

After the usual course of Arithmetic and Book-Keeping, the Students, according to their proficiency and capacity, are placed in different classes of Mathematics.

There are three classes of French, in which the Students are distributed according to their abilities.

There are two semi-annual examinations. If, at the first examination, any one be found to have sufficiently improved, he is promoted to a higher class. Such promotion will be equivalent to the honors of the class left.

The candidate for the degree of Bachelor of Arts must undergo a rigorous examination in Moral and Natural Philosophy, Astronomy and Chemistry, and must be well acquainted with the following branches, to wit: Latin, Greek, French and Mathematics. He is also required to write a speech or essay on a Literary, Scientific or Moral Subject, a copy of which must be left at the College. If he remain longer in College, and pursue the higher branches of Moral and Natural Philosophy, or if he graduate in any learned profession, after completing the above course of collegiate studies, he may receive the degree of Master of Arts.

Careful attention is bestowed on the religious and moral training of the Students, who, even in hours of recreation, are under the special superintendence of Prefects or disciplinarians.

The use of tobacco is prohibited to the students, and no one will be received who is unwilling to abide by the prohibition.

Books, Papers, Periodicals, &c., are not allowed circulation among the Students, without having been previously revised by one of the Faculty.

Whilst the moral and intellectual culture of the youths committed to our care is attended to with all assiduity, their physical development is by no means neglected. A Ball-Alley and Gymnasium occupy a portion of the ordinary play-grounds: the numerous hills and lakes in the vicinity afford, during the winter months, every opportunity for skating and coasting. The Blackstone river, which runs within a few hundred yards of the College, offers safe and delightful bathing-places. The Farm attached presents ample range for the indulgence of Foot-Ball and Cricket Games, at their proper seasons. These innocent amusements, added to the healthfulness of the climate and location, work wonders in our Students, many of whom enter with pale cheeks and sickly frames, but invariably depart in buoyant spirits and flushed with health.

The Collegiate year commences on the first Monday of September, and closes early in July. Students are admitted, at any period of the year. No applicant from any other Institution will be received, without testimonials as to conduct and character, from the President of that Institution.

Should any pupil be removed by his Parents or Guardians, or *should he withdraw himself from the College*, before the term expires, no deduction will be made.
