FORWARD

Recently I have completed a book entitled "Chronicle of the 39th Infantry Regiment" with the intent of identifying and documenting the route taken by the 39th Infantry Regiment from the Normandy Beaches through the subsequent European Campaign. My motivation was to learn as much as possible about my father's travels, activities, and experiences as he fought with the Ninth Division from Normandy to the Elbe River. My father was Cpl. Richard B. Kann, a medic in 2nd Battalion, Company G, of the 39th Infantry Regiment. He was known for his efforts to reach and provide aid to Col. Paddy Flint when he was mortally wounded on July 24, 1944. For this action he received the Bronze Star. He served from July 1943 through October 1945, from Normandy to the end of the war at the Elbe River, then on to Schrobenhausen for occupation duty.

My goal was to assemble a chronicle of the daily locations, events, and actions so that others who share the same interest could travel the same route in the future and be aware of the difficult times the troops faced. Many authors have done a superb job of documenting the Ninth Division, but none have focused specifically on the daily progress of the 39th Infantry Regiment. During my research I became aware of the tremendous research potential provided by The Octofoil, the Ninth Division Association's newsletter. Buried in approximately 75 years of newsletters can be found the names, home towns, rank, units, letters, friends, notes, military actions, and stories – in fact, a wealth of eye witness details of the happenings of the Ninth Infantry Division during World War II. Also included are letters to the editor, and letters between friends telling personal stories describing actions during wartime from the soldiers' point of view. And, an added benefit are the many pictures of soldiers and their buddies at wartime locations and at post-war Association events.

Trying to make use of this important information is like trying to find a book in the library without the use of a card catalogue or the Dewey Decimal System. In 2009, I began a project to index the Octofoils for names of 39th Infantry Regiment veterans with the intent to identify organizational structure and associations. I soon realized the historical wealth of valuable stories, letters, and pictures contained in the newsletters. I decided to index all Ninth Division stories, thinking stories would be of most value to the largest number of researchers. I continued to index the 39th veterans and pictures to satisfy my research needs. I began this work in 2010 from the Octofoil Library Project DVD of documents. It has taken me about 12 years of part time effort to index the Ninth Division stories, and the names and pictures of the 39th Infantry Regiment. Hopefully my efforts will provide the model and incentive for others in the future to complete this work for the entire Ninth Division. I would have liked to have indexed veterans of the 47th and 60th Regiments and all associated 9th Division organizations, but that project must wait for a later edition. Indexing of the 47th Infantry Regiment is underway and should finish by December of 2021 as a Second Edition. A Third Edition will center on indexing of the 60th Infantry Regiment and should complete by December of 2022.

OCTOFOIL NEWSLETTER INDEX
First Edition

I would like to thank many in the Association, both veterans and their descendants for their help in facilitating my work. First, Mr. Red Phillips reviewed my "Chronicle of the 39th Infantry Regiment," offered many helpful comments, and included the "Chronicle" in the Octofoil Library Project document collection. In 2010, Mr. William Sauers was very helpful to my initial indexing effort by providing the Octofoil Library Project DVD, Volume 1, 2010. Credit must also go to Mr. Dale Smith, 39th Infantry 2nd Battalion Medic, for helping me with his wartime accounts with my father. In February of 2021, Mr. Terry Barnhart assisted the effort by providing a DVD of 2006 through 2012 Octofoils. Terry later advised that Octofoils from 2018 through the present are available on the Members Only section of the Ninth Infantry Division Association web site. Terry also advised me that Octofoils from 1947 through 2019 were now available online on the Holy Cross CrossWorks web site. The Holy Cross CrossWorks web site is part of the Holy Cross permanent archive for the 9th Infantry Division. What a tremendous resource this site provides to the researcher. Assistance from all of these individuals made it possible to complete the attached group of indexes.

I hope you find these indexes helpful and will report any comments or suggestions to the undersigned.

Sincerely,

Dick Kann

Using this Index

This index was created by reading each Octofoil newsletter and creating a record for each Ninth Infantry Division Story, each 39th Infantry Regiment Veteran, and each 39th Infantry Regiment picture. There are four separate indexes:

1. The **Ninth Infantry Division Stories index** allows you to find stories and accounts by scanning the left most index column to identify a Category. Categories are general topic areas for grouping collections of stories under a general description like Country, Generals, Infantry Regiment, North Africa, Memorials, Ninth Infantry Division Association, Ninth Infantry Division History, Normandy, Remagen Bridge, Russians, and many more. Having picked a Category, find a Story of interest from the Story column, then use the Octofoil Date and Page to look up the story in the on-line Octofoil archive.
2. The **39th Infantry Regiment Veteran Reference Index** contains a record (or line) for each Octofoil occurrence of a veteran's name. Included in the line are Last Name, First Name, Initial, Rank, City, State, Company (or battalion), Octofoil Date, Page, and Comment. Search alphabetically on the last name field, then use the Octofoil Date and Page to look up the reference in the on-line Octofoil archive.
3. The **39th Infantry Regiment Pictures by Category Index** contains a record (or line) for each Octofoil occurrence of a veteran's appearance in a picture. Included in the line are Last Name, First Name, Initial, Rank, Company (or battalion), Octofoil Date, Page, and Comment. To assist in lookups, a high level "Period" field allows the pictures to be grouped by Pre-war, Post-war and Wartime groups. A Category field was also added to further group pictures by topic (England, France, Belgium, Germany, North Africa, Fort Bragg, Gatherings, Reunions, Trips, and more.) Search alphabetically on a Period, then within the Period, on a Category, and finally, on a Description of the picture. After the picture is identified, use the Octofoil Date and Page to look up the picture in the on-line Octofoil archive. Last name, first name, and company are sometimes available to further describe the picture.
4. The **39th Infantry Regiment Pictures by Name Index** like the **Pictures by Category Index** contains a record (or line) for each Octofoil occurrence of a veteran's appearance in a picture. **Pictures by Name Index** is organized on veterans names sorted alphabetically.

Octofoil Access

Octofoil newsletters may be found on-line at the following locations:

The Holy Cross University CrossWorks site (1947 - 2019):

<https://crossworks.holycross.edu/octofoil/>

The Ninth Infantry Division Association Members Only site (2018 - present):

<https://9thinfantry.org/members-only/>

Octofoil newsletters may also be found on the **Octofoil Library Project DVD, Volume 1, 2010.**

Notes and Tips

1. The CrossWorks web site adds a title page before each Octofoil newsletter. The page number shown in this Index does not include the CrossWorks title page, but rather is the actual page number of the Octofoil page referenced.
2. Indexing involved reading each Octofoil newsletter and looking for clearly identified 39th Infantry men. If a reference did not contain a company or battalion identification, that occurrence of the name was not initially included in the index. Later, when a large number of references with affiliations had been indexed, I began to compare names without affiliations against already indexed records to possibly index names without affiliation. If affiliation cannot be made, the name is not included.
3. The Index date field lists the first month and year of the issue. Octofoils newsletters often covered anywhere from 1 to 3 month. Therefore an issue covering multiple months is listed in the index as the first month in the period.
4. I found an interesting discrepancy with the Dec 52-Jan 53 issue. I have seen two different issues for the same time period. The Octofoil Project DVD has a **February 1953** newsletter which opens and displays **December 1952-January 1953 Vol 8 Number 2** in the issue line of the title page. The Holy Cross CrossWorks archive has a **December 1952** issue which opens and displays **December 1952-January 1953 Vol 7 Number 12**. I wonder how two different issues for the same time period came about; there must be a good story!
5. The comment öTAPSö in the 39th Infantry Veterans comment field refers to the special section in most Octofoil newsletters listing veterans who recently passed away.
6. The Holy Cross CrossWorks archive has no February 1953 edition. Indexing was done on the February 1953 issue from the Octofoil Library Project DVD. The issue contains several Paddy Flint articles.
7. The sequence number on the Veterans Reference Index is a sequential number based on discovery of the reference by newsletter issue date sequence.
8. Names are often spelled incorrectly across the collection of newsletters. Using the additional data such as first name, middle initial, rank, company, home town, and state, I have tried to arrive at the correct form and spelling of names. Often, internet searches of FamilySearch, Legacy, and Find-A-Grave were used to arrive at a more correct form of the name.
9. The Army Ranks Table used while indexing was found in the Octofoil September 1966 issue, page 6:

APPENDIX I Correct abbreviations of Army rank as outlined in Change 3. AR 320-50 are as follows:

GEN-General.
LTG-Lieutenant General
MG-Major General
BG-Brigadier General
COL-Colonel
LTC-Lieutenant Colonel
MAJ-Major
CPT-Captain
ILT-First Lieutenant
2LT-Second Lieutenant
CW4-Chief Warrant Officer, W-4
CW3-Chief Warrant Officer, W-3
CW2-Chief Warrant Officer W-2
WOI-Warrant Officer. W-1 .
SGM-Sergeant Major
MSG-Master Sergeant
ISG-First Sergeant
PSG-Platoon Sergeant
SFC-Sergeant First Class
SSG-Staff Sergeant
SGT-Sergeant
CPL-Corporal
PFC-Private First Class
PVT-Private
SP 7-Specialist 7
SP 6-Specialist 6
SP 5--Specialist 5
SP 4-Specialist 4

10. The following Octofoil newsletters in the Holy Cross CrossWorks archive have problems:

August 2004 ó page 3 is duplicated
August 1993 ó page 3 is duplicated
August 1996 ó really displays May 1996 edition
November 2004 ó page 3 is duplicated
November 1956 ó page 1 is duplicated
November 1948ó issue is missing
November 1952 ó issue is missing
February 1953 ó issue is missing
June 1956 ó issue is missing
July 1971 ó issue is missing
November 1972 ó will not download
September 1977ó issue is missing

Even with these minor problems, you will find the Holy Cross CrossWorks web site an extremely valuable research tool.

Index to 9th Infantry Division Octofoil Stories from Jan. 1947 to Oct. 2020

Index work done by Richard B. Kann Jr. son of Richard B Kann Company G, 39th Infantry Regiment

Index lists Category and Story alphabetically and points to the Octofoil date and page of reference
