College of the Holy Cross,

WORCESTER, MASS.

This College, founded by the Rt. Rev. BENEDICT JOSEPH FENWICK, Bishop of Boston, in the year 1843, and by him given to the Fathers of the Society of Jesus, stands on the beautiful heights of Worcester, whence a charming view is enjoyed of the city and surrounding country. The location is remarkably healthy. Ninety-six acres of land are attached to the College.

The object of this Institution is to prepare youths for a *Professional* or for a *Commercial* state of life.

In Philosophy.

The Students learn Logic, Metaphysics, and Ethics. The Lectures on these branches are delivered in Latin, and a daily discussion (in Latin) is held on the Lecture. In Natural Philosophy, Astronomy and Chemistry, the Lectures are given in English.

Mathematics.

After the usual course of Arithmetic and Book-Keeping, the Students, according to their proficiency and capacity, are placed in different classes of Mathematics.

There are three classes of French, in which the Students are distributed according to their abilities.

There are two semi-annual examinations. If, at the first examination, any one be found to have sufficiently improved, he is promoted to a higher class. Such promotion will be equivalent to the honors of the class left.

Candidates for the degree of *Bachelor of Arts* are required to undergo an examination in Intellectual, Moral, and Natural Philosophy, before the Faculty of the College. They must, besides, have pursued the regular classical course.

Careful attention is bestowed on the religious and moral training of the Students, who, even in hours of recreation, are under the special superintendence of Prefects or Disciplinarians.

Books, Papers, Periodicals, &c., are not allowed circulation among the Students, without having been previously revised by one of the Faculty.

Whilst the moral and intellectual culture of the youths committed to our care is attended to, with all assiduity, their physical development is by no means neglected. A Ball-Alley and Gymnasium occupy a portion of the ordinary play-grounds: the numerous hills and lakes in the vicinity afford, during the winter months, every opportunity for skating and coasting. The Blackstone river, which runs within a few hundred yards of the College, offers safe and delightful bathing-places. The Farm attached presents ample range for the indulgence of Foot-Ball and Cricket games, at their proper seasons. These innocent amusements, added to the healthfulness of the climate and location, work wonders in our Students, many of whom enter, with pale cheeks and sickly frames, but invariably depart, in buoyant spirits and flushed with health.

The Collegiate year commences, on the first Monday of September, and closes, early in July. Students are admitted, at any period of the year. No applicant from any other Institution will be received, without testimonials as to conduct and character, from the President of that Institution.

This Society, organized in October 1859, affords to the Students of the College, favorable opportunities for acquiring a practical as well as a theoretical knowledge of the sword and its uses. Fencing is justly ranked among those arts in which young men should be instructed, to some extent at least. It affords not only beneficial exercise to the body, developing strength, skill and dexterity, but is also a pleasant recreation.

Care is taken that the instructions and practice do not interfere with College studies or other duties.
